## Assembly Instructions

mocka

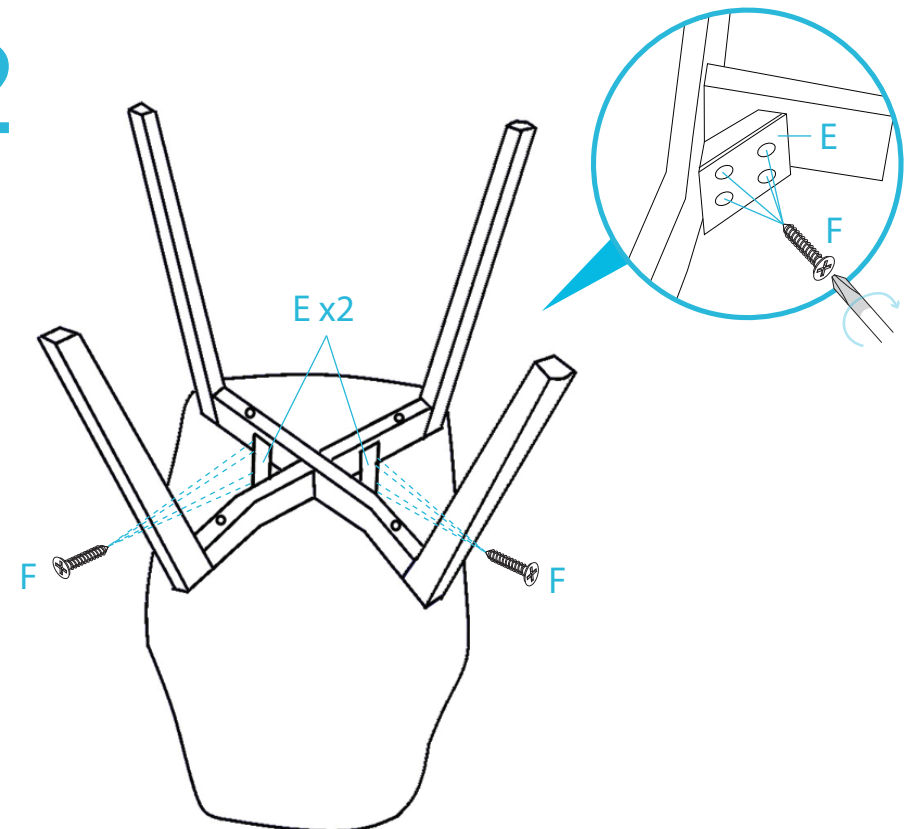

Please note that there are no pilot holes on the legs, but wedges are to sit flush as shown. Just put the screw in and start turning and it will find where it needs to go, or use a drill if you have one handy.

1

Attach left legs [2] and right legs [3] to the underside of the chair seat [1] using 4x washers (D), 4x nuts (C) and 4x bolts (B). Tighten with the allen key (A).

2

Insert 2x wedges (E) between the legs as shown and secure with 8x screws (F). Tighten with a screwdriver. You're done, enjoy!
